Company Name : Albemarle Corporation

Company Sector : Specialty Chemicals

Operating Geography : United States, North America, Global

About the Company :

Albemarle Corporation is a Charlotte, North Carolina-based fine chemical manufacturer. Lithium, Bromine Speciality, and Catalyst are the three divisions it operates. The Corporation was formed in February 1994 after Ethyl Corporation completed the spin-off of its chemical divisions. With sites in the United States, China, the Netherlands, Belgium, Germany, France, Austria, and the United Kingdom, the corporation is a major producer of flame-retardant chemicals. It also has a line of antioxidants and blends aimed at extending the life and stability of gasoline and lubricant products in storage. It makes rigid and flexible polyurethane foams, as well as ammonium polyphosphate products, pigments for paper, aluminium oxides for flame retardant, polishing, catalyst, and specialist ceramic applications, and magnesium hydroxide, which is primarily used as a flame retardant. Albemarle also manufactures fine chemicals and provides chemical services to the pharmaceutical and biotechnology industries. On June 20, 2021, the business announced the opening of its Battery Materials Innovation Center (BMIC) in Kings Mountain, North Carolina.

Albemarle Corporation's USP lies in it being the market leader in lithium and lithium derivatives, which is one of the speciality chemicals industry's fastest-growing areas. The mission statement of Albemarle reads, "Here at Albemarle, our purpose statement – MAKING THE WORLD SAFE AND SUSTAINABLE BY POWERING THE POTENTIAL OF PEOPLE – inspires and motivates us to execute our strategy, support our stakeholders, and create lasting value that will benefit the next generation, and beyond".
