Company Name : Spirax-Sarco Engineering plc

Company Sector : Industrial Engineering (Steam Specialties and Electric Thermal Solutions)

Operating Geography : United Kingdom, Europe, Global

About the Company :

Spirax-Sarco Engineering plc is a British company that specialises in steam management systems, peristaltic pumps, and other fluid path technology. Cheltenham is the company's headquarters. In 1888, Herman Sanders established the business. Heating and air-conditioning systems, oil refinery and chemical processing, pharmaceutical and food sectors, as well as the creation of polymers, textiles, and other materials, are just a few of the industries that use Spirax-products. Three of the company's specialist engineering businesses are steam specialties, electric thermal solutions, and Watson-Marlow. Natural technology is used to control and manage steam at Spirax Sarco and Gestra, two of its steam speciality companies. Electric thermal solutions firms Chromalox and Thermocoax are among them. Watson-Marlow provides customers with peristaltic pumps and associated fluid path technology. Sarco's Although its core manufacturing operations are located in Cheltenham, England, Spirax-Sarco has seven manufacturing plants around the world. Through 42 sales offices, the corporation operates in 32 countries. As of early 2022, the company has over 8,700 employees on its rolls.

Spirax-Sarco Engineering plc's USP lies in its being the world's leading manufacturer of steam traps, peristaltic pumps, flowmeters, and other steam-controlling apparatus and equipment. The mission statement of the company reads, "To profitably supply world-class products, services and expertise to ensure our customers optimize energy usage and maximize process efficiency in steam and condensate systems".
