**About the Company :**

Wood, or John Wood Group plc, is a British international engineering and consultancy firm headquartered in Aberdeen, Scotland. Sir Ian Wood established the company in 1982. Projects, Operations, Consulting, and Investment Services are the company's four operating segments (IVS). Engineering, procurement, construction (EPC) contracts, and construction management are all part of the company's Projects business. Electric Vehicle Charging Infrastructure across the United Kingdom and Europe is part of its Operations section. Its Consulting division is working on a road map for a net-zero transit network in Canada, as well as renewable energy, process and chemical energy, and traditional energy. Aegis project is part of the company's investment department. Throughout the asset life cycle, the company provides comprehensive solutions to optimise the performance of customers' industrial assets. Wood is used in a variety of industries, including upstream, midstream, and downstream oil and gas, chemicals, environment and infrastructure, power and process, clean energy, mining, and general manufacturing. Following the award of a three-year contract extension to support the business's assets on the Norwegian Continental Shelf, the company announced in February 2022, that it will prolong its two-decade cooperation with worldwide energy company Equinor.

John Wood Group's USP lies in its being one of the world's premier consulting and engineering firms in the Energy and Built Environment sectors, with 40,000 employees working in 60 countries as of 2022. The mission statement of the company reads, "We are led by our purpose to unlock solutions to the world's most critical challenges, in energy and the built environment".
