Company Name : Altair Engineering Inc.

Company Sector : Information Technology

Operating Geography : United States, North America, Global

About the Company :

Altair Engineering Inc. is a global technology company that provides software solutions in the areas of simulation, data analytics, and high-performance computing. The company was founded in 1985 and has its headquarters in Troy, Michigan, United States. Altair provides a suite of integrated solutions for product design and development, including computer-aided design (CAD), computer-aided engineering (CAE), and computer-aided manufacturing (CAM) tools. Altair's flagship product is HyperWorks, an open-architecture simulation platform that enables customers to optimize the design of their products and make informed decisions about product development. In recent years, Altair has expanded its offerings to include data analytics and artificial intelligence solutions. The company provides software tools for data visualization, statistical analysis, machine learning, and predictive analytics. Altair has a strong global presence, with offices in North America, Europe, and Asia, and a network of partners and resellers worldwide. As of early 2023, Altair employed over 2800 people. Altair was named one of Newsweek's 2022 Most Loved Workplaces, ranking 46 out of the top 100 firms in terms of employee happiness and satisfaction at work.

Altair's mission is to explore and unleash the limitless potential of the curious and creative mind by transforming product and business decision-making through simulation, data analytics and optimization solutions. The USP of Altair is that it ranked 1st for its Generative Design and is highly known for its world-class technology.
