**Company Name :** Pegasystems Inc.

**Company Sector :** Software Technology

**Operating Geography :** United States, North America, Global

**About the Company :**

Pegasystems Inc., based in Cambridge, Massachusetts, is an American software firm. Pegasystems is a software company that was founded in 1983 by Alan Trefler and specializes in customer relationship management, robotic process automation, and business process management. PEGA has been a publicly traded firm since 1996. The Pega Platform, which is part of the Pega Infinity suite of applications for customer engagement and digital process automation, is the company's main software product. It is designed to connect customer interfaces with back-end process automation. Pegasystems claims that its apps are certified to run on Google Cloud as well as other public cloud platforms such as Microsoft Azure, Amazon Web Services, and Pivotal's Cloud Foundry. Insurance, financial services, healthcare, life sciences, government, manufacturing, high tech, communications & media, energy, and utilities are among Pegasystems' specialties. Trefler researched chess-playing computer systems before launching the company in the early 1980s. During its early years, the company specialized in case management, mostly for companies like American Express. As of early 2023, Pegasystems employed over 6,133 people.

The USP or Unique Selling Proposition of Pegasystems is that they have a scalable architecture and low-code platform to stay ahead of rapid change. Pegasystems' mission statement is "To deliver innovative software that crushes business complexity, so our clients can solve problems today and transform for tomorrow."

**Revenue :**

US\$ 1,212 million - FY ending 31st December 2021

US\$ 1,018 million - FY ending 31st December 2020
