**Company Name :** ExxonMobil

**Company Sector :** Oil & Gas

**Operating Geography :** North America, Global

**About the Company :** Formed by the merger of Exxon and Mobil in 1999, ExxonMobil Corporation is an American multinational oil and gas company, headquartered in Irving Texas. The company started as a regional marketer of kerosene, but then later grew up to be an advanced energy and chemical innovator, and one of the largest publicly traded company in the world. It has its operating facilities all over the world, oil and natural gas exploration in six continents. It invests in next generation technologies to meet the challenges of global economies and climate change. ExxonMobil has a diversified portfolio of high-quality projects in Upstream, Downstream and Chemical businesses. ExxonMobil Chemical, one of the company's brands, is considered as one of the largest chemical companies in the world. It converts crude oil into petrochemical feedstocks which is in medical equipment, electronics, clothing, vitamin capsules, tires and many such products. As of December 2020, the company has approximately 72,000 employees across all its facilities in the world. The company captured the position of No.10 in 2021 Fortune 500.

ExxonMobil's unique selling proposition or USP lies in being the world's largest publicly traded international oil and gas company. ExxonMobil mission statement reads, "Our mission is to provide quality chemical products and services in the most efficient and responsible manner to generate outstanding customer and shareholder value while remaining committed to the principles of sustainable development."

**Revenue :**

US \$178.57 billion (FY Ended December 31, 2020)

US\$ 255.58 billion (FY Ended December 31, 2019)
