Company Name : Insurance Domain – KSA

Company Sector : Insurance

Operating Geography : Saudi Arabia, Middle East

About the Company : The GCC countries had seen an average of only 2.3 per cent insurance penetration in 2017, a figure which is significantly lower than the 6.2 per cent of the global average and 3.2 per cent of the global emerging markets. Saudi Arabia's insurance industry has been forecasted to see solid premium growth both in the non-life and smaller life insurance sectors. This positive outlook is expected to be fuelled by increasing employment and income rates. However, high costs of operation and labor are proving to be obstacles in the industry's growth path. The entry of foreign companies expected in 2019 and 2020 and the possibility of local insurers merging to form larger entities are two factors which have the ability of promoting growth. The introduction of the Women's Driving License Act is also estimated to boost the growth of the Motors insurance sector as demand for motors sales and rentals will increase.

Revenue :
