**Operating Geography :** United States, North America, Global

**About the Company :**

Airbnb is an online lodging marketplace founded in 2008 by Brian Chesky, Joe Gebbia and Nathan Blecharczyk. It is headquartered in San Francisco, USA. The company has 7 million places of accommodation in 220+ countries. The accommodations are all managed by local hosts who sign up on the platform to provide rooms on rent for people looking for lodging. The company basically acts as a broker that receives commission on each booking. To cut down the high cost of rent in San Francisco, the current founders and former roommate Brian Chesky and Joe Gebbia came up with the concept of setting an air mattress in their living room transforming their apartment into a bed and breakfast (a lodging that accommodates overnight stay and breakfast). Thus, Airbnb, an abbreviated version of its original name, AirBedandBreakfast was formed. Today, Airbnb hosts offer millions of listings in more than 220 countries and regions and over 100,000 cities, and many of these listings are only accessible on Airbnb. It has around 6,132 employees as of early 2022.

Airbnb's USP or unique selling proposition lies in being one of the world's largest online marketplaces for unique, authentic, and alternate accommodations. Airbnb's mission is "to help create a world where you can belong anywhere and where people can live in a place, instead of just traveling to it." Airbnb's vision statement reads "Belong Anywhere".
