Company Name : Freddie Mac

Company Sector : Secondary mortgage market

Operating Geography : United States, North America, Global

About the Company : Freddie Mac is a GSE chartered by Congress in 1970. The company's mission is to provide liquidity, stability, and affordability to the U.S. housing market. The company is engaged primarily in purchasing residential mortgage loans originated by lenders. The company packages the loans into mortgage-related securities and sold these in the global capital markets. The company also engaged in transferring the mortgage credit risk exposure to private investors through its credit risk transfer programs. This includes securities- and insurance-based offerings. Freddie Mac also indulges in investing in mortgage loans and mortgage related securities. The U.S. housing market is supported by it and thus it impacts the overall US economy. The company enables the America's families by providing them easy accessibility to mortgage loan funding with better terms. It also provides consistent liquidity to the multifamily mortgage market. The company has established strong relationship with FHFA, customers and the industry so that it can provide a better housing finance system for the entire nation. Through its efforts, the company has been able to help the distressed borrowers in keeping their homes or avoiding any foreclosure.
