Company Name : Square

Company Sector : Payments, Banking and Financial Services

Operating Geography : United States, North America, Global

About the Company : Square was started in February 2009 to enable businesses (sellers) to accept card payments. Square is a cohesive commerce ecosystem that helps sellers start, run, and grow their businesses. It combines sophisticated software with affordable hardware to provide sellers powerful payment and point-of-sale solutions. It achieves high seller acceptance rates and fast onboarding, while maintaining low risk and fraud losses as a result of our approach to risk management that emphasizes data science and machine learning. We focus on technology and design to create products and services that are cohesive, fast, self-serve, and elegant. These attributes differentiate Square in a fragmented industry that forces sellers to stitch together hardware, software, and payments services from multiple vendors.

The foundation of its ecosystem is a full service, managed payments offering. Sellers can onboard to Square in minutes and, once onboarded, accept payments in person via swipe, dip, or tap of a card or online via a stored card on file or payment entry form. Sellers pay a transparent transaction fee which includes next-day settlements (or instant settlement for an additional fee via Instant Deposit), payment dispute management, data security, and PCI compliance. As of Jan 2019, Square had over 3,300 full-time employees.

Revenue :

US \$ 3,298.2 million - FY ending 30th Dec 2018

US \$ 2,214.3 million - FY ending 30th Dec 2017
