Company Name : Turkcell

Company Sector : Telecommunications

Operating Geography : Turkey, Asia, Global

About the Company :

Established in 1993, Turkcell is one of the leading digital operators in terms of revenues with its headquarters in Turkey. The company strives to provide an integrated communication and technology services including data, voice, IPTV on both fixed and mobile networks. The company has been seen projecting an exponential trajectory in its number of subscribers due to its superior quality of services. Moreover, Turkcell is the only Turkish company to have its shares trade on the stock market of New York Stock Exchange (NYSE). Over the years, Turkcell has undergone aggressive diversification by entering into a number of strategic alliances and different mergers and acquisitions like the geographic expansion into Germany with the help of a subsidiary of Deutsche Telecom in 2011 and the 80 percent stake acquisition in BeST in 2008. Recently, Arrowstreet Capital LP and Morgan Stanley & Co. LLC bought a significant number of the company's shares. As of 2020, Turkcell completed a 800G Trial with Huawei, on the Live Carrier Network.

Turkcell is known for its innovative and unique products and services. It is one of the first global operators to have implemented HSPA+ technologies to meet the increasing network demands of the customers. Turkcell's vision statement reads "Superior digital services for a better future" and mission statement reads "We add value along our customers' digitalization journey, enriching their lives - both in Turkey and throughout the World - ever improving our competencies and robust ecosystem
