About the Company : Mitsui O.S.K. Lines, headquartered in Toranomon, Minato, Tokyo, is a Japanese transportation company. Under the Legislation Concerning the Reconstruction and Reorganization of the Shipping Industry, MOL (Mitsui O.S.K. Lines) was founded in 1964, following the merger of Osaka Shosen Kaisha (OSK) founded in 1878 and Mitsui Steamship Co., Ltd. founded in 1942, formerly Mitsui Line. Mitsui O.S.K lines, a multi-model transportation company, meets the needs of the period in a wide range of fields, including dry bulkers such as iron ore carriers, coal carriers, wood ship carriers, tankers that transports crude oil, LNG that transports liquefied natural gas, gas carriers, and container ships that carry a wide range of goods. MOL's dry bulker fleet, the world's largest, provides versatile, dependable service with a wide range of specialised carriers built to meet the particular characteristics of various cargoes and loading and discharging port conditions. The company also has a diverse fleet of flexible bulkers ranging in size from small to large, capable of meeting a wide variety of trades and offering high-quality transportation services all over the world. On March 30, 2021, Enviva, a global energy corporation specialised in renewable wood bioenergy, a Mitsui O.S.K. Lines (MOL), a leading global marine transport company, have announced the signing of a memorandum of understanding (MoU) to build and deploy an environmentally friendly bulk carrier. The agreement aims to reduce greenhouse gas ("GHG") emissions from sustainable wood pellet transportation over water.

Mitsui O.S.K Lines' Unique Selling Proposition or USP lies in it being one of the world's largest and most varied fleet of vessels, from containerships to tramp vessels and specialized carriers. Mitsui O.S.K Lines' mission statement reads, "strive to maximize corporate value through creativity, operating efficiency and promotion of ethical and transparent management. Nurture and protect the natural environment by maintaining the highest standards of operational safety

and navigation".
