**Company Name :** Chesapeake Energy Corporation

**Company Sector :** Oil & Gas

**Operating Geography :** United States, North America

**About the Company :** Chesapeake Energy Corporation operates in hydrocarbon exploration. It has its headquarters in Oklahoma city. In 1989, Aubrey McClendon and Tom Ward founded this company and it was named after McClendon's love for Chesapeake Bay region. This company engages in acquisition, exploration, and development of properties to produce oil, gas and NGL from underground reservoir. The company possess a large and geographically diverse portfolio of onshore U.S. unconventional liquids and natural gas assets. The company is utilising three drilling rigs in Central Texas and expect to operate two or three rigs throughout the year, resulting in 55 to 65 wells expected to be placed in production in 2020. Chesapeake Energy Corporation continues to focus on increasing cash provided by operating activities, reducing debt, improving margins through financial discipline and operating efficiencies and refine environmental and safety performance. The company remains committed to strengthen their brand by achieving free cash flow, improving well productivity and capturing further cash saving in 2020. The company leverages the talent of 2300 employees as of early 2021. The company has received numerous awards like Best Managed Oil, Gas Company and The Energy Producer of the Year and it is ranked 309th on the Fortune 500.

Chesapeake Energy Corporation's USP or Unique Selling Proposition lies in it being the leading organisation in its industry. The company give superior services to its customers and communities. It has delivered safe, secure, reliable and efficient solutions that are environment friendly and economically smart and by maintaining close connection with its peers, communities and shareholders.
