Company Name : Teck Resources Ltd

Company Sector : Natural Resources Mining, Mineral Development

Operating Geography : Canada, Europe, Global

About the Company : Teck Resources Limited is a Canadian-based mining company, headquartered in Vancouver, British Columbia. It is the result of the merger of Teck and Cominco in 2001 and was initially named as Teck Cominco until late 2008. Teck's operations focuses on coal, copper, zinc, energy and secondary products such as lead, silver, gold, molybdenum, germanium, indium and cadmium. It owns 10 operating mines, a metallurgical complex and various other development projects in America. The groups major expertise include exploration, development, mining and minerals processing, smelting and refining, health and safety, environmental protection, materials stewardship, recycling and research. As of December 2020, the Group has approximately 10,000 employees. In 2021, Teck Resources was included in the Global 100 Most Sustainable Corporations List.

Teck Resources' hydrometallurgical technology is managed by CESL, which is based in Richmond, British Columbia. It offers services like treatment of copper, copper-gold, nickel-copper, and nickel concentrates. Teck looks up to CESL for its hydrometallurgical technical support in its operations to manage various test programs for its clients.

Teck Resources' unique selling proposition or USP lies in being one of the leading mining companies in Canada. Teck Resources' mission statement read, "Teck is committed to responsible resource development. We are focused on operating sustainably, ensuring the health and safety of our people, and building strong relationships with communities"

Revenue :

CAD\$8.9 billion - FY ending 31st March 2021

CAD\$11.9 billion - FY ending 31st March 2020
